

The UFO Enigma

A Publication of the UFO Study Group of Greater St. Louis
Volume 22 - Number 6 - Feb 2002

BILL BERRIGAN & "HUMAN-ALIEN CONTACTS-CONFLICTS?"

Life – for many – is a mystery unfolding before wondering eyes, surprisingly moving toward unnamed goals despite human misunderstandings, misteps or conscious mistakes. Bill Berrigan was born in Boston, Massachusetts on April 22, 1960 under the influence of the Pleiades in the constellation of Taurus. Significant? Maybe, if one realizes that he had developed for 11 months in his mother's womb and had to be taken caesarean at the point of death because the umbilical cord had wrapped around his neck. His mother underscored the mystery theme several times, telling him, "I don't think you wanted to come out into a world like this."

As featured speaker for the UFO Study Group of Greater St. Louis, Inc. 2 p.m. Sunday, Feb. 10, 2002 at Grone Cafeteria, Yorkshire Plaza, Watson at Laclede Station Road, Bill will share early memories of unconventional saucer shaped aircraft, dreams of "little people" who'd take him at night to teach him marvelous spiritual things, voyages "out-of-body" to unknown places, insights into the lives of strangers he'd just met and painful experiences like one abduction which left a scoop mark behind his right knee. Bill soon learned not to talk to his family about UFOs or the paranormal aspects of his life. Why not, *when his father read books about them?*

Bill, like many abductees, had a "vision" that he would be used to tell people about the source of the UFO phenomenon. Was this an ego-building fantasy for a shy youngster or a call to unique service? Bill's contemplation on mysteries and meditation on the nature and purposes of God in his life have led him to delve into cosmic questions and to develop creative hypotheses. Bill Berrigan, advisor to industry for 20 years, writing and designing computer software that runs the spectrum from games to Top Secret, takes a wry look at his place in society's scheme. "I have always wanted to be 'normal'; but I haven't figured out how to be normal yet. In fact, I wonder if anyone really is."

Bill attended public schools through high school, weighing what he was taught in classrooms against what he'd learned through alien intervention. *He didn't believe instructors who declared that the only sentient life forms lived on our earth.* He graduated in the top 10% of his 700 member class and was offered one of the two openings from Massachusetts to enroll in the U.S. Air Force Academy. He declined so he'd learn computer science at Northeastern University. He left college after two years to enter the Information Systems marketplace. He is now creating original websites and helping industry maximize others. Bill Berrigan will share a lot of interesting experiences and challenging ideas! If you miss our February 10 meeting, you will regret your loss.

The Enigma is a publication of the UFO Study Group of Greater St. Louis, and is published monthly, September through June each year. Not affiliated with any national society, the UFO Study Group is an independent, non-profit organization dedicated to the investigation and reporting of both area and national UFO sightings and peripheral areas of interest. Yearly membership is \$20.00. You may contact the UFO Study Group or any of its members and/or submit articles for publication through the UFO Study Group of Greater St. Louis, Inc., P.O. Box 31544, St. Louis, MO 63131. Please include self-addressed stamped envelope for materials to be returned.

SURVEY REPORT: YOUR RESPONSES TO EXTRATERRESTRIALS, Part 2

by John E. Schroeder

Last month's *Enigma* introduced "Your View of UFO Influences" in your life and personal relationships based on the seven survey forms voluntarily returned Nov. 11, 2001. Now explore emotional responses to aliens.

Emotional responses to creatures outside our world or dimension? "Provokes my sense of wonder." "Just amazement!" "It's a bit scary somehow." "Increasingly more positive (*mostly*) as more is understood." "Frightening!" "Interesting, challenging and exciting." "Accepted." *For most people, observers of UFOs and even abduction experiencers, the concept of extradimensional or extraterrestrial visitors causes fear or ambivalence. UFO Study Group members' replies are surprisingly positive and open to insight. Why? Familiarity with the idea?*

Wise, superior, good and helpful? "Probably." "Some." "Hopefully." "Not known." "On one side of a universal conflict." "Wise, evil and destructive." *Quite evenly divided but edged with uncertainty.*

Wise, superior, evil and hurtful? "Probably." "Some." "Probably." "On the other side of a cosmic conflict." "Not superior!" *Again, fewer responses and less certainty.*

Both simultaneously? "Probably." "I don't think so." "Depends upon how it (the experience) affects each individually." "Some seem to be, but evil masks itself as good to magnify its influence on humans." "Possibly both; but mostly evil. They are not wise; but have more knowledge." *The final statement really rechanneled my reasoning. Does advanced technology equate with true wisdom? Do true prophetic statements make the speaker good? How do humans discern? The Bible says the defining question is, "Who is Christ? Who's son is he?" I'd add, "Are you representatives of the Christ whose blood sacrifice atones for the sins of the whole world?" My bias!*

Some of each? "At least." "Yes." "Just like humans, there is good and evil in all people and beings." "The Bible says some angels are 'confirmed holy' and others who rebelled against God under Satan's leadership are 'condemned eternally' as totally evil." "Yes, and more!" *Compare the total lineup, then take your choice.*

We develop equal technologies? "Not sure." "Probably some technology is advanced because of UFO research. I don't think we'll find out everything they know." "I think we are already being helped in many ways." "We may already have ... It depends on which alien group we're talking about." "According to Lazar and Corso, we've already benefitted from retroengineering captured or crashed alien craft." "We will never be able to develop to their level." "Yes.(we will.)" *A good cross-section of opinion; but all responses are necessarily conjecture.*

How do you feel about personal contact with extraterrestrial or ultradimensional beings? "I would be open to it." "A little worried." "A bit frightened but exhilarated at the same time." "I believe many of us already have on some level of consciousness." "Not good! I don't want an implant in me." "I believe that the Lord who directs good angels directs them to guard us against attacks by demonic angels." "They are mostly controlling." *Respect for their power is understandable; but we don't have to accept evil done to us and call it good. That's Stockholm syndrome and Patty Hearst response to controlling kidnappers. Don't admire them and join them.*

Your future world projection? "The end of the current world civilization soon." "Advanced technology and living for those who cooperate. Primitive conditions for those who don't." "I always hope good will triumph over evil; but who is good and who is evil?" "A psychical and spiritual shift before 2012 with alien intervention." "Probably no change in my lifetime." "Aliens goad World War 3 to reduce population and take over temporarily." "Aliens will 'reveal' themselves and integrate us into their world." *Apparently only one optimist among these prophets.*

What is your potential in it? "Hopefully I will play a positive local role as it approaches." "Exist anyway I can." "Not much chance for anyone my age, but I'd like to see what's next!" "I feel I will play a major role in these coming events along with a group ... who are involved with this coming shift." "I plan to stay informed and spread The word of the truth when appropriate." "I hope to have enough spiritual strength to serve God faithfully." "Be part of understanding what it is about." *Plenty of food for future thought! ENOUGH SAID!*

The 1972 McChord AFB UFO Incident - Shots Fired At ET

By Former AFOSI agent c. 2001 Robert Collins
12-30-1

Preamble

This is from the files of AFOSI dated in October 1972. Note that Blue Book closed it's doors in December 1969 but yet here almost three years later we see that the Air Force is still collecting UFO reports then proceeding to classify them. No fictitious names or places were used in this report. The names and events are real.....Rmc

On October 14, 1972, Airman First Class(AIC) Steven Briggs and Airman (AMN) Dennis Hillsgeck were instructed to check the tactical air navigational (TACAN) facility located eight miles east of McChord Air Force Base.

The TACAN site was situated on government land maintained by the United State Army, Ft. Lewis. Briggs and Hillsgeck drove to the TACAN site at approximately 1300 hours. Upon their arrival, they opened the locked fence surrounding the TACAN facility and entered the compound. Once inside the compound, they opened the TACAN building and began to conduct a systems check of the TACAN equipment.

At approximately 1400 hours., Briggs heard a strange sound outside the building. According to Briggs, it sounded like a high pitch engine.

Briggs exited the building to investigate the sound.

Once outside, Briggs observed a saucer shaped object directly above the TACAN building. Briggs watched as the object landed just south of the TACAN compound.

Briggs was startled by the object and entered the TACAN building to summoned Hillsgeck. Once Hillsgeck and Briggs exited the building together, they observed two "creatures" walking towards the fence.

Briggs returned to the building and telephoned (555) the base security police. He yelled that they needed help at the TACAN site because "intruders" were attempting to enter the facility. The phone call was received by Sgt David Holmes, the Law Enforcement Desk Sergeant, 62nd Security Police Squadron.

Sgt Holmes dispatched Sgt Dwight Reid and AIC Michael Tash to the scene. It took the security police patrol 17 minutes to travel to the TACAN site.

Upon their arrival, they observed Briggs and Hillsgeck standing near their government vehicle. Both appeared to be in a daze. Neither could speak. Sgt Reid summoned an USAF Ambulance to the scene.

Hillsgeck appeared to have been burnt around the face.

AIC Tash walked around the area and found marks in the soft Washington state dirt. Then suddenly, Sgt Reid yelled to AIC Tash that an object was directly over his head. A saucer shaped object was hovering just above the TACAN facility.

Sgt Reid attempted to communicate to the security police law enforcement office by using his Motorola HT-220 portable radio. However the radio did not function.

Sgt Reid then yelled for AIC Tash to return to the police vehicle. Sgt Reid and AIC Tash retrieved Briggs and Hillsgeck and drove from the scene.

Approximately one mile from the TACAN site, Sgt Reid was able to communicate with the security police office, requesting assistance and declaring a "Covered Wagon." Four additional security policemen arrived on scene, including, Sgt Darren Alexander and his military dog-Champ. Sgt Alexander and Champ drove to the scene and started to search the area. Approximately 400 yards south of the TACAN site, Champ alerted.

Sgt Alexander observed two "creatures" standing near a remote power station. Sgt Alexander yelled for the two "creatures" to stand and raise their hands.

Both creatures then moved towards Sgt Alexander. Sgt Alexander observed that one of the creatures was holding an object, which Sgt Alexander thought was a weapon. Sgt Alexander fired six rounds from his military issued Model 15, .38 Caliber Revolver. After firing the shots, Sgt Alexander returned to his vehicle and radioed Sgt Reid that he had fired at the creatures.

A Security Alert Team (similar to a police SWAT) arrived. They conducted a search of the area and observed the saucer shaped object sitting on the ground, directly east of the power station. They circled the object and called for a supervisor.

Captain Henry Stone, Security Police Law Enforcement, arrived on scene but the object departed just as Captain Stone walked towards the object. The object flew off in an easterly direction and was out of sight in a few seconds.

Office of Special Investigations agents arrived on scene and conducted an investigation. Statements were taken from all involved. Evidence was collected from the scene, to include shell casings from the rounds fired by Sgt Alexander.

This incident was classified as Top Secret and remained in the OSI files as unsolved. ____

PLAIN DEALER, Cleveland, OH - May 27, 2001 CR: G. Duplantier/B. Robbinsa

UFO investigator chases out-of-this-world reports

By MICHAEL SANGIACOMO

PLAIN DEALER REPORTER

Denise Knitz saw a strange egg-shaped object in the sky as she drove along Interstate 75 near Bowling Green. It was low and slow, kissing the treetops until it suddenly streaked across the night sky.

At least 17 other travelers say they also saw the object Oct. 31.

John Timmerman of Lakeview, near Lima, was not one of the 18, but he smiles when he talks about it. He says Knitz's sighting may be the best "close encounter" he has investigated in more than 50 years because it had "multiple, credible witnesses giving the same very specific information."

Timmerman, treasurer of the Center for UFO Studies in Chicago, has been investigating mysterious objects in the night sky and silvery discs in the daylight since 1948. Even though he has "never been blessed with the experience" of having seen a UFO himself, the 77-year-old retired banker from Lima is convinced that something is out there.

"I believe that the source of these sightings is extraterrestrial," he said. "We're being visited by something from a place so different that we can't even comprehend it. People always criticize the lack of a perfect, clear photograph of a UFO. Maybe these things cannot be photographed at all."

Skeptics like Lawrence Krauss, chairman of the physics department at Case Western Reserve University, argue that believing UFOs are piloted by extraterrestrials is ridiculous.

"Consider the enormous amount of time and energy that would be needed to get here," he said. "It would take the energy of a star to do it. And why would they do it just to drop in and take off again? Also, the government has a huge amount of software to detect anything entering our atmosphere. They would see it."

When asked about government surveillance of UFOs, Timmerman laughed at alleged disinterest by federal authorities.

"The government pretends not to care about UFOs," said Timmerman. "How could they ignore something with that kind of impact? I think the government has been having high-performance aircraft taking pictures of these things for years. They don't need us to tell them about UFOs; they know all about them."

een night. "She and the others saw something very extraordinary," he said. "I would love to know exactly what it was."

Knitz said she was making a delivery for Chuck's Pizza in Cygnet and had just gotten off the Cygnet exit of I-75. She looked right, toward a field, and saw something she will never forget.

"This black craft drifted out over the trees," Knitz said. "It was sort of like an egg on its side with this weird blue-white glow at the back. It was about the size of three cars and had no wings, no wheels, no tail. It was perfectly silent. It was headed right over I-

75, not very high off the ground, and it just hung there."

"Then it pivoted about 30 degrees and there was a big burst of light from the back of it and it took off," she continued. "It was there one second, gone the next, leaving a trail of light across the sky."

Knitz said she delivered the pizza, then returned to the area, where she met Tim O'Neil, a classical piano teacher from Michigan. He and a friend were driving home from a Florida vacation. The UFO was still visible.

"It was not far from where I was before," she said. "The man

lice officers, pilots, professionals, politicians — people from all levels of the social strata.

Krauss said that in order for scientists to take note of alien life, someone would have to come up with extraordinary evidence, such as a chunk of alien technology, or a chunk of an alien. Photos and eyewitness testimony, no matter how credible, are not enough, he said.

So volunteers such as Timmerman continue to plug along, looking for that unimpeachable sighting. He approaches his job cautiously, looking for logical explanations to the phenomena.

Defying explanation

Over the years, he has interviewed several thousand people who claimed to have seen uniden-

tified flying objects. He said most of the sightings are easily explained as high-flying aircraft; the bright planet Venus (often mistaken for a UFO); advertising blimps; or hoaxes.

"Then there are the sightings that we cannot explain," he said. "Those are the ones I investigate."

Ohio, with 356 sightings, ranks ninth in the nation for the overall number of UFO sightings since the mid-1980s, according to the National UFO Reporting Center in Seattle. The Web site at www.nwlink.com/~ufocntr/ lists brief reports on all the sightings.

Timmerman, who concentrates on sightings in Ohio, wishes he could conduct more thorough investigations, but he is constrained by time, travel and finances. He has no high-tech laboratory to study soil samples or plant fibers

but consults with scientists and astronomers frequently.

"At the very least, I document what happened," he said. "I have thousands of reports filed by people who have seen UFOs and hundreds of taped interviews. I'm just one guy, but I do what I can. I feel I can at least pass on this wealth of information and raw data to someone who will take up where I left off someday."

He said he has become something of an expert in interviewing people who have seen UFOs, and he can spot a prankster in a minute.

'It was real'

He was thrilled to speak with Knitz, 42, of Bloomdale, who contacted him because no one else seemed very interested in what she and others saw that Hallow-

blimp," she added. "I've seen plenty of blimps in my life, and they don't move like that. I wish I had a logical explanation. The shape and the way it moved really freaked me out."

Timmerman said he may never figure out what Knitz saw, but not for lack of trying. His wife, Margaret, thinks he tries too hard.

"I want to enjoy our retirement, travel, and do things together," she said. "He's working harder now than he ever did."

For further information from Timmerman, call 937-843-3834.

MICHIGAN DIAMOND SHAPED UFO

BOYNE CITY – At 8:00 PM my husband and I sat down to watch TV and I heard a loud rumbling sound outside on November 15, 2001. I looked out the window and did not see anything. The next morning our office gal told me she had heard the loud noise at the same time, and saw a flying object over her home heading west that then came back east over her home a second time.

BOYNE CITY – A second witness also reports hearing a loud rumbling noise at 8:00 PM the same night and went to her back door to listen. Thinking it was a jet plane she went back inside but the noise continued getting louder, so she went out again. She only saw stars, and went back inside and asked her husband, son, and son's friend, "Can't you hear that?" They thought it was just a slow jet but went outside to look. They rushed back in, and said, "Come out and see this!" The witness states, "We could see this huge diamond shape UFO with elongated bottom, with a light at each tip and an orange light in the middle." It gradually moved off to the northwest but within five minutes it was coming back. We all watched as it traveled over our home traveling southeast, when it got over Boyne City all of a sudden all of the outside lights started to spin around. Shortly the light on the right side veered off over Lake Charlevoix, which was to the west, while rest of the craft continued on its course, but soon the lone light came back and was heading the same direction as the large craft. It traveled until it was out of sight. I then started calling law enforcement agencies, FAA, and local airports but was unable to find out anything.

MANCERLONA – Also on November 15, 2001, about ten minutes later at 8:10 PM, my husband and I saw a UFO. It was a bell shape cylinder top with saucer like bottom. It had three red lights on it in the shape of a triangle. It glowed reddish with a little whitish light. It had some time of a grill around its middle. It moved very slowly to the left as it was faced towards us. There were two other normal aircraft following it. We saw it for about eight minutes before it went out of our sight behind the trees. We took 3 pictures but they didn't turn out very well. Thanks to Peter Davenport NUFORC www.ufocenter.com

ILLINOIS BRIGHT BALL OF LIGHT

LEBANON – On December 4, 2001, and several previous nights at 10:50 PM on my way home from work driving north on Route 4 towards Lebanon from Scott Air Force Base and while driving east on new Route 50 to Carlyle I witness a ball of light moving across the sky at a very high rate of speed. I can't tell it's altitude or size. I drive at 65 mph and it comes into my view as I leave the base and it is gone out of my sight before I reach Breese, Illinois. The drive takes about 15 minutes. The object must cover about 300 statute miles in that time frame. It is first visible from the southwest looking from Lebanon and last visible in the northeast over Vandalia from the same vantage point.

FLORIDA FLYING V

EDGE WATER – On November 9, 2001, the witness was outside aligning his satellite dish, when he looked up, and right above him was something like a lit up flock of flying birds. This was impossible because there were no lights shining up and it was dark at 8:20 PM. The lights moved closer to each other and moved away making a V-shape. It was like a big bird flapping it's wings. The witness said, "This is the first time, I've ever seen anything like this and it didn't make a sound either. The thing that freaked me out the most was that there were three planes, immediately after I saw the V- shaped craft. I don't even believe in UFOs, but I'm not sure now."

PANAMA CITY BEACH – At 2:55 AM, the witness saw a glowing orange chevron shaped object fly rapidly across the sky from west to east on November 9, 2001. The witness is a sane, sober 51-year old professional who has always been skeptical of UFO sightings. He says, "Last night I saw something, which I cannot explain. I fell asleep early in the evening and had to walk my dog at 2:55 AM. I decided to look for meteors when I noticed a glowing pale orange "shape" rapidly moving east, very faint to be barely discernible. The orange light seemed almost translucent and was shaped like a boomerang or chevron, except the leading edge was straight across as opposed to a "V" shape on the front edge. It was perfectly symmetrical across its width. I had difficulty determining the true size, altitude, or speed but it covered 100 to 120 degrees in 5 to 7 seconds. This seemed to be an unbelievable rate of speed. I would judge the width of the object to be 5 or 6 times a full moon's diameter. The length of the object from front to rear was perhaps 1 X a full moon's diameter. The object made no sound. I am 100% convinced the object was not a natural phenomenon such as a meteor or a cloud. Peter Davenport reports he spoke at length with this witness, and we found him to be exceptionally credible. We suspect this was a very interesting sighting, similar to others that have been reported to NUFORC recently.

NORTHEAST

Charlene sent this e-mail, "I write you hesitantly and grudgingly, not wanting to have talked about this outside my marriage, but my husband has badgered me to report the event. I will therefore explain the incident on condition of 100% complete anonymity. I am a 30-year-old professional female, I'm not particularly interested in science, science fiction, nor have I seriously entertained the idea of UFO's previously.

On November 7, 2001, at approximately 1:00 AM, I had just finished a lovely dinner while visiting with my parents in a rural area. On my way home I was driving along a dirt road, which cuts through farmland until it accesses the main road. I was about half way along the access road when I noticed in front of my car an area that could best be described as distorted, like heat waves coming off a hot asphalt road in the middle of summer. (We live by the way in the Northeast, so it was certainly less than warm in mid November.) The headlights of the car began to flicker the radio, which I was listening to keep me alert for the ride home crackled then died. The engine stopped and I can only describe what happened next as a red glowing almost translucent, like a red glowing stove element, somewhat irregular shaped object appeared about 20 feet in front of my car, slightly to the left and hovered about 10 feet off the ground. The object sort of just appeared like it burst onto the scene from nowhere. I certainly did not notice anything peculiar previously to the object appearing. The object was irregular in shape, roundish but the edges were not well-defined and seemed to wobble or change almost like a cartoon animation. The object also seemed to be giving off sparks or something. The object maintained the same position for five minutes, best described as, morphed, or changed its shape into a pillar like shape, and its color went from translucent red to platinum silver and shot straight up into the sky at incredible speed.

The car began functioning again, the radio came back on, and I continued home convincing myself I had imagined the whole thing, that I was still sleepy. When I got home I explained the whole thing to my husband. My husband went out to check the car and noticed spots on the hood of the car where the paint had bubbled as if burned. The radio functioned but the CD player and digital clock no longer work. This was an odd experience to say the least and have talked to no one about it but my husband. We don't know what to make of this experience except that we are in agreement not to talk of this to anyone for

fear of ridicule or worse. I have been having nightmares ever since and hope that perhaps by relating my experience can somehow alleviate some of the stress this episode has caused. Since this episode I cannot drive alone at night and even during the day prefer to be accompanied. The stress is beginning to take a toll, a patch of hair on my head has fallen out, and I suffer from headaches and sporadic shooting pains up my spine. I have sought medical attention for the physical symptoms and they can find nothing wrong. If the psychological symptoms don't subside I may seek professional help for them as well although I do not want to have to relate this experience to anyone. Thanks to Charlene.

AUSTRALIA MAN FOLLOWED BY UFO

BRISBANE, QUEENSLAND -- A report has just come into MUFON from a man returning home from work in the suburb of Fernvale. On arriving just out of Ipswich his wife contacted him by mobile phone to pick up some milk on his way home. He stopped at a small shop at 7.35 PM, just this side of Brassall fifteen minutes drive from his home in Fernvale. As he drove along he became aware of a bright light on the horizon. He said that usually he drives at around 100 kilometers per hour (60 mph) on this stretch of road, but found himself doing 135 kilometers (80 mph). As he drove on, the light became bigger as he got closer, it seemed to be stationery then as he got a little closer his immediate thought was, that it was someone on a motor bike. As he got closer still the color seemed to change from the color of a halogen light to the reddish/orange. This light went over his car and was about 45 degrees above the trees on the passenger side of the car, it seemed to keep abreast with him, so he sped up. It kept just ahead of his car. When I asked him how big this light was? He said, 'if you stretched out your arm it would be about 8 inches in diameter,' he would gauge the height it traveled was about 20 feet above the trees.

He contacted his wife by mobile phone and asked her to go outside and look in his direction at this object in the sky. She said that she watched it for about five minutes before it flew in a south west direction. Malcolm claims that he watched it for a good fifteen minutes. Malcolm had phoned me around 9:15 PM to report the incident. I asked him was anything different regarding his car or clothes, skin etc. He asked me to wait while he checked out his car. Malcolm came back to the phone rather puzzled, he found a type of dust imbedded in his car on the passenger's side, roof and the front of the bonnet (hood) also around the trim on the doors-when he shined a large spotlight on the paint work he found that the colors were imbedded into paint work of the car -- like a brown, creamy color and other colors seemed to glitter. When he ran his hand over the paint work he found that the dust particles felt like fine sand paper. I asked him to scrape off some of the residue so that we can have it examined. On questioning Malcolm - it would appear a time distortion (lapse) had taken place. Usually it only takes him about 15 minutes to reach home from Brassall, the time he arrived home at 8:50 PM. It would appear that he had an hour of lost time. Malcolm has been a truck driver for many years. Up until now has never had any interest in or taken notice of UFO's. A pretty down to earth chap. I will interview him tomorrow. Thanks to Rev. Glennys Mackay, J.P. Continental Director MUFON AUST. & NZ.

NEW YORK UNSEEN AIRCRAFT SOUNDS

CATSKILLS AND ADIRONDACK AREAS – Eugenia Macer reports that recently, an entire neighborhood in the Catskills heard low-flying, invisible aircraft and reported this to the police and to me. There was also a concomitant power outage. The police could not recall the exact hour of the several power outages nor were they interested in the invisible airplane scenario. Yet they did not state they thought the folks who reported invisible airplanes were "crazy." "It might be terrorist activity near the reservoir," stated one policeman though the location of the strange "auditing" was about twenty miles from the reservoir.

Similar unseen aircraft noises were reported in New Jersey and the South American country of Chili. The Chilean Police authorities, Carabineros headquarters in San Pedro de Atacama claim events of this type are common in San Pedro, and for this reason, scant attention is given to them and they are not entered in the police blotter unless the event has a level of relevance that draws the attention all of the community's residents. I am going to include this incident in my next book entitled, "DOING BUSINESS IN THE ADIRONDACKS." Thanks Eugenia Macer-lornis1@juno.com.

NORTH CAROLINA TRIANGULAR SHAPED OBJECT WITH MOVING SPHERES

GREENSBORO – Saturday night, December 15, 2001, my wife and I with a friend went out to eat at the Carrabbas restaurant. We had a two-hour wait outside sitting on the bench; I noticed a very, faint amber colored triangular shaped object moving to the southeast at 7:20 PM. The UFO phenomena has always interested me so I am always looking, but 99.9% of the time I can identify anything in the sky, but this time it was strange. As it got closer, I noticed that within its triangular structure it appeared to have many spheres or "orbs" interchanging within it. The entire craft remained the faint amber color, although the spheres appeared to be more translucent. My curiosity in the object attracted a crowd who also saw the same thing. One lady let out a startled yell, another said they were just balloons. However, the size of the object at that altitude would have meant the balloon cluster would be huge, and it retained a definitive shape, but the rest of the craft did appear to morph somewhat. We watched it fly off towards Fayetteville at a 1000 feet. Initially it looked like a jetliner with its lights on shrouded by heavy cloud cover. This was clearly unidentified. Thanks to Peter Davenport Director NUFORC www.ufocenter.com.

TEXAS ROD SHAPED OBJECT

WICHITA FALLS -- I was outside in my front yard on December 6, 2001, stargazing as I often do since I'm an amateur astronomer. It was a very clear night southerly breeze. Looking up at 10:00 PM, I saw a rod shaped object it was white, about 4 foot long and 6 inches around. It was only fifteen feet over my head and barely cleared the roof of my house. It was moving from north to south opposite the wind. I'm a very scientific minded person. This is the second time in last few months I have seen unusual things. The [thing] made no sound and had no lights it was just very bright white and perfectly formed. Thanks to Peter Davenport Director NUFORC www.ufocenter.com.

NEW MEXICO FIVE VERY BRIGHT SPHERES

ALBUQUERQUE – On December 1, 2001, my son (26) and I were driving on I-40, heading east down the hills into Albuquerque at 9:20 PM, when we observed a formation of five very bright spheres with long, arcing, glowing tails traveling slowly north. The first three were in a triangular formation and much brighter than the last two, which were offset from each other. The latter two abruptly disappeared, and the remaining ones continued to travel across the sky, disappearing behind the northern mountain range. They were too slow to be meteorites, and we could see them very clearly. My son is a physicist and amateur astronomer and I am a teacher and book illustrator. We can not explain what we saw. We discussed all the possible explanations for our "sighting" and came to the conclusion that they moved too deliberately to be "space junk" or huge bright comets. They were definitely not airplanes, as they had very bright, glowing trails that followed their arc of travel. Occasionally they would flash with blue light. They were the largest objects in the sky - impossible to ignore. Thanks to Peter Davenport NUFORC www.ufocenter.com.

CHILE: STARTLING UFO SIGHTING

LA FLORIDA -- The December 6, 2001, Diario "Las Ultimas Noticias" reports that a gigantic and flaring light landed for hours in the vicinity of San Ramon Hill, filling local residents with fear. Ufologist Alberto Urquiza discarded the possibility that the lights belong to helicopters, airplanes, or planets. Jessica Serrano manages some tourist cabins in a place known as Los Rulos saw a UFO on November 16 at 22:00 hours, with some friends at work. A white light emerged only meters away from the place. "It lit up everything, it was as big as a stadium."

Alberto Ruiz, a researcher with the GEO UFO group (Grupo de Estudios Ovnilogicos), notes that 17 sightings of unidentified flying objects were recorded between November 6 and the 25th in the pre-Cordilleran region. "These are large lights that descend to earth and remain suspended a short distance from the surface. The witnesses have seen them at some 100 meters distance. Some of the lights have remained suspended in mid-air between four and six hours. Ruiz, who witnessed the phenomenon on November 10th, stated that he received simultaneous phone calls regarding sightings from five communities who were observing the phenomenon. Thanks to Alberto Ruiz, Lornis1@juno.com and SHnSASSY1@aol.com.

Update on Southern Illinois Site

by Wayne May

The June/July, 1999 issue of Ancient American published exciting news concerning the disclosed location and planned excavation of the controversial "Burrows Cave." It allegedly contains thousands of inscribed and illustrated stone tablets deposited by Old World visitors to southern Illinois almost 2,000 years ago. Discovered by Mr. Russell Burrows in 1982, the precise whereabouts of the Cave, has caused a great commotion among the many participants including Harry Hubbard (his site is in Marion or Wayne County) and Robert Ghostwolf who claims to have a site somewhere in the midwest.

Since our announcement three years ago, representatives from Ancient American and Discovery Resources (a California-based research organization) have joined forces to identify and open the Cave site Mr. Burrows identified to them in 1999. Early in their joint venture, they were surprised to learn that the landowner of the site had no previous contact with Mr. Burrows. They were subsequently forced to enter into a new agreement with the landowner, before they could even attempt an entry.

After 42 months of painstaking fund-raising and arranging for the professional participation of specialists in geology, archaeology, excavation, metal detection and ground penetration radar, we are finally ready to proceed with opening the Cave.

We were additionally surprised to discover that its known openings seem to be deliberately collapsed and filled in sometime during the recent past. What we now feel reasonably sure is the main entrance comprises a 20 to 30 foot horizontal tunnel with a 110 foot drop to the floor of the corridor. The formerly open spaces are filled with collapsed rubble, and there are indications that the doorway to the site was collapsed intentionally."

We were surprised yet again by a statement from Mr. Burrows. He now claims that the underground site we have identified is not his, which, he insists is more than forty miles away. According to Burrows, the location we are working was revealed years ago to him by local Indians as a Chickasaw treasure trove, which he has never visited.

Of course, we will honor Mr. Burrows' request that the location which has become the focus of our labors will no longer be referred to "his" site, and henceforth be known, not as "Burrows Cave," but as Tombs of the Embarras (pronounced "Ahmbrah").

Mr. Burrows' has made an announcement that "his" site is currently being excavated by an anonymous archaeology team from an unidentified "major" university. He claims that work at this undisclosed location is presently

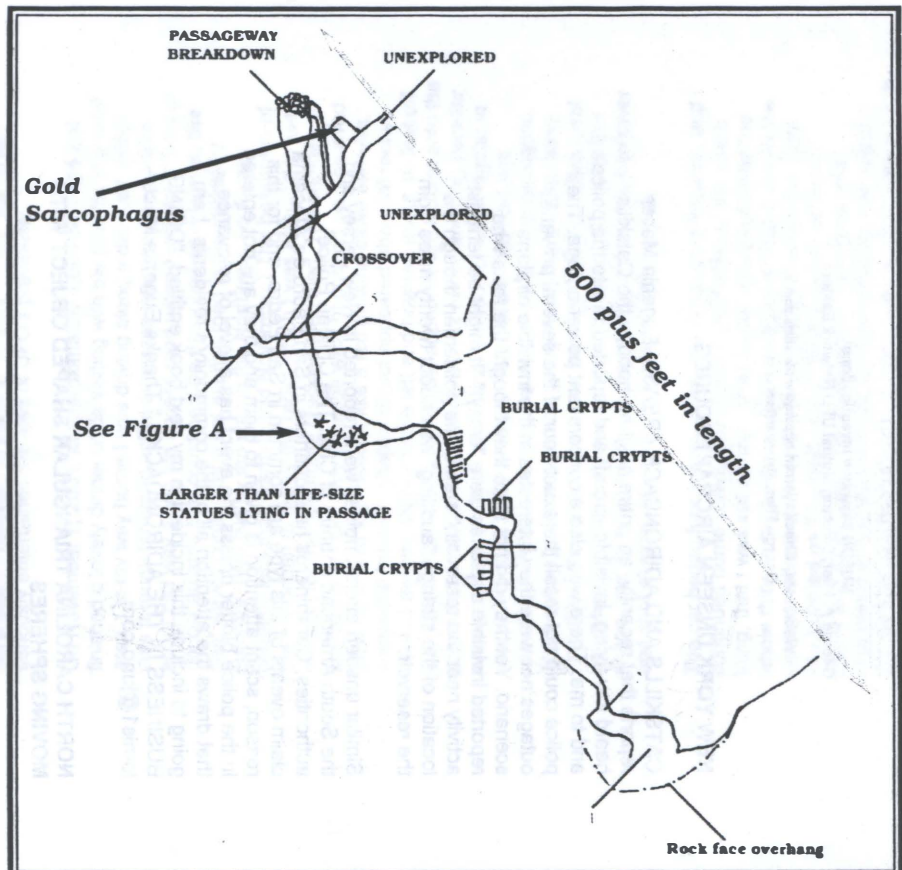

On March 24th, 1999, Russell Burrows led Wayne May to what he claimed was the location of the "Mystery Cave of Many Faces," site of a cache of inscribed, illustrated stones documenting Old World visitors to Illinois in pre-Columbian times. Above, Mr. Burrows points to the alleged cave entrance where he supposedly made his discovery 17 years ago. The following day, Mr. Burrows entered into a contractual agreement with Discovery Resources, wherein he agreed to reveal the place of entrance. Upon signing the agreement, Mr. Burrows accompanied Wayne May, Ralph Wolak of Discovery Resources and three other investors to the same site as the day before, where Mr. Burrows declared, "this is the cave!"

taking place. Artifacts removed, examined and photographed by the unnamed professor in charge will be allegedly turned over to him as his personal property because the landowner has deeded

the site to him in some fashion.

Meanwhile, Ancient American Magazine and Discovery Resources are bringing to bear virtually every kind of high-tech equipment to "our" site.

ANCIENT AMERICAN • ISSUE # 42

Results have been encouraging. Ground Penetration Radar read-outs from the summer of 1999 scanned by members of Wisconsin's Ho Chunk Nation from Black River Falls, Wisconsin are presented in Figure A. The main tunnel system was surveyed electronically and ("coincidentally"?) proved to be a very close match to the map purporting to be "Burrows Cave," published in Ancient American, volume 1, issue number 4. According to Mr. Burrows, five 8-foot tall, anthropomorphic statues stand in the main tunnel passageway.

He further stated that these objects have what appears to be gold metal encircling the neck and continuing down to the feet (See figure A). Following the g.p.r. discoveries, a megatometer specialist from Utah, Gary Hewlett, went to the site with his sensitive instruments. Mr. Hewlett has been and still continues to locate subterranean features, as far as 200 feet beneath the surface. He made three passes across the site to verify its underground tunnels and cavities.

Amazingly, Hewlett's survey revealed that the subterranean openings were virtually identical to those indicated on the map provided by Mr. Burrows years before. We also understood then that the site was much larger and more complex than previously imagined. G.P.R. uncovered four cavities in a row at uniform depth and size (Figure B). In his professional opinion, Mr. Hewlett stated that these cavities are highly probable non-geologic spaces.

Figure A. Ground Penetrating Radar scan completed by HoChunk Nation (Winnebago) of Black River Falls, Wisconsin, summer of 1999. Five verticle non-geologic objects approximately 7 feet in height with metallic markings (green, blue, yellow) top to bottom in a very consistant horizontal pattern. See map below for location of objects. Copyright ©, Ancient American magazine.

Figure B. Four cavities (rooms?) laid out in a row at same depth, width and length. These cavities were discovered using a megatometer operated by Gary Hewlett of Salt Lake City, Utah. Mr. Hewlett has 20-plus years in finding tunnels and cavities for mining companies. Copyright ©, Ancient American magazine.

Discovery Resources brought in a special metal detector able to differentiate between smelted metal and ore. Burrows always described the under-

ground location as filled with precious and semi-precious metals. Our detector did indeed show that large metal objects, some of copper and gold, were in verticle piles, or standing upright like statues. Burrows said that anthropomorphic artworks were common at the site, and our detector seemed to have identified verticle metallic objects.

Later, Gene Storm, a mining engineer from Reno, Nevada, brought along a piece of mining instrumentation new to us. Linear Radar projects a signal through the ground sideways, and is especially effective on hillsides. He showed us how the main underground "door" of the site runs for 20 to 30 feet, but with a verticle down-turn of 110 feet to hit the tunnel floor. This space was filled with collapsed rubble, so we had to find another place to dig a verticle hole, using a well-drilling rig.

Thanks to his expertise, Mr. Storm found the only area that rises within 30 feet of the surface, ideally suited for the entry we will attempt in the coming weeks. We plan to enter this tunnel system as soon as possible, probably soon after Christmas, 2001. Ancient American readers will be the first to get an inside look at this challenging discovery. On-site will be a licensed archaeologist, a mining engineer and a Ho Chunk Elder to represent Native Americans. Be sure to read our next issue for the latest ground-breaking news! ■

Let it be known that Ancient American Magazine and Discovery Resources have no involvement or business connection with Harry Hubbard or Robert Ghostwolf.

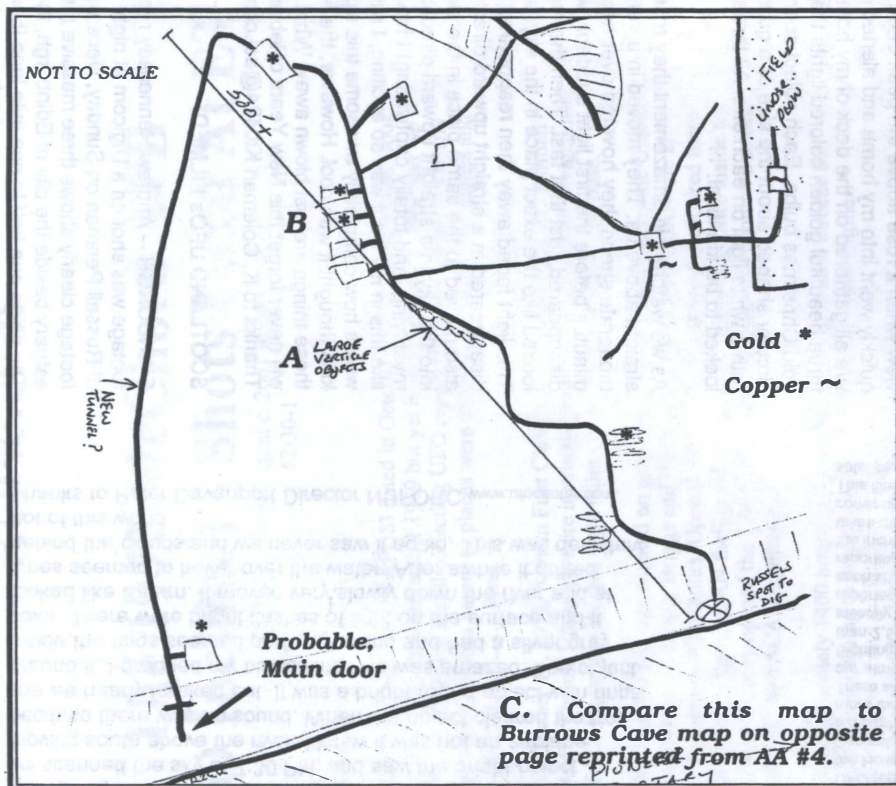

Figure C. Map showing the size and layout of what we have discovered over the last 3 years using the best possible radar detection and survey methods we could afford. Map is not to scale. Copyright ©, Ancient American Magazine.

FLORIDA WE SAW A BRIGHT OVAL OBJECT WITH RINGS

BREVARD -- My daughter phoned to tell us, there was a really strange light moving down the St. John's River. From our patio, we scanned the sky at 7:30 PM, and saw the bright object moving south above the river. I knew it was not an airplane because there was no sound. When the object cleared the tree line we nearly freaked out. It was a bright round object with rings around it. I grabbed my binoculars and was amazed. The object inside the rings seemed perfectly round and had a silver gray color. There were bright flashes of light on the surface and it looked like Saturn. It moved very slowly down the river and at times seemed to hover over the water. After awhile it drifted behind the clouds and we never saw it again. This was definitely not of this world.

Thanks to Peter Davenport Director NUFORC www.ufocenter.com.

HAPPY NEW YEAR

UFOs HAVE BEEN REPORTED in New Jersey, Wisconsin, Minnesota, Arkansas, Oklahoma, Washington, Canada, Scotland, Belgium, France and New Zealand. The number of UFO reports dropped as they have done in recent years during the Holidays. Most of the December reports occurred on December 1, when a Russian Proton rocket reentered the atmosphere over the US Middle West. However, many of the more than 40 sightings did not seem to be the space debris. There are indications that more than a dozen UFOs were inside our atmosphere throughout the US and Europe that night. Sightings in 2001 remain high similar to the year 2000 with more than 2,500 reports each year in the US alone. UFO reports have steadily increased over the last five years. Most sightings are reported over the Internet indicating a fairly high level of sophistication for those able to use the Internet and find reporting sites. The increase in sightings may be attributed to the increase in Internet usage. However, the average report takes thirty minutes to fill out, so those making the reports are convinced they saw something very unusual and very important. This filtering process helps rule out hoaxes, mundane stars, satellites, aircraft and the like.

WASHINGTON NEW YEARS EVE UFO

KENNEWICK -- Today is January 1st, 2002, last night at 10:00 PM, K.. Colman along with three adults and three children, got the opportunity to observe the presence of three unexplainable lights. He reports, "They put us in nothing short of complete amazement! I first saw one beautiful light that was traveling in a somewhat upward yet horizontal direction. It first came into my view when it rose above the peak of our shop in our backyard. I quickly went into my home and alerted my family and friends. We all gathered on the deck of my home and saw in the sky three beautiful golden colored lights that reminded me of big gold Christmas bulbs. Each object seemed to be Gold in color, circular shaped about the size of a quarter, held at arm's length, with a white light on each one. All three unidentified objects looked to be identical.

As we watched in amazement they rose to a position almost straight above us. They moved in a very smooth way, at a very moderate speed they hovered over head for seven to ten minutes before the first light suddenly went straight up and disappeared, just that fast. Then the next light moved to what looked like the exact place in the sky, and did the same thing. This light faded away then reappeared and then quickly disappeared in a straight upward direction. Then, the third light also moved to the same place in the sky and, it too, disappeared into the sky in a straight upward direction. It was simply mystifying, and totally captivating! I have never seen anything like this in my life it was so exciting, I simply cannot put it into words how completely awesome this sighting really was! The kids thought it was cool. However, the four adults that witnessed these things are just blown away! What a great experience! We will never forget this New Years celebration that is for sure! Thanks to K. Coleman Kt0424@aol.com

SCOTLAND UFOs FILMED

EDINBURGH -- Andrew Hennessey reports that world shattering footage was shot on a Digicom at night by Steve X an associate of Russell Penman on Sunday, December 23, 2001. The footage clearly shows three massive motherships over the estuary beside the city of Edinburgh, the capital of Scotland. The ships one half to one mile long [best guess at this time] are elliptical, clearly curved at the front -- the front terminating in three giant headlights. The two hours of substantial Digicom footage clearly show one many windowed, and many layered mothership issuing forth bright shiny pod shaped ships or beings

glowing white. Over the course of the two hours -- these ships are disgorged by the mothership in clear focus as they fly off in twos or in formation or singularly over the City of Edinburgh and its suburbs. There are two other ships of similar configuration further off in the distance. This wonderful footage is of earth shattering significance, but also comes by way of several other amazing photographs and other stills by the Penman 'group.'

This is the clearest evidence I have ever seen that Alien life has a massive social engineering program for the human race. We could not clearly see the other two ships doing the same -- as the light capsules were tiny in proportion. The other two ships were declassified simultaneously -- in the drop zone of the Lothian's. On top of other fabulous daytime footage by Brian Mac Phee also of the forth valley at Stirling, near Edinburgh. Central Scotland is again confirmed as one of the hottest hotspots on the planet. Over the piece, I watched hundreds and hundreds of little lights fly out of the mothership at all levels of the structure, sometimes hanging back so the others could catch up, they flew and scattered in all directions over the sleepy Capital of Scotland - a city which anciently was once thought of as a Jerusalem with its seven hills and its Masonic connections and secrets. We are not alone. Thanks to Andrew Hennessey pegasus@easynet.co.uk Transformation Studies Group.

BELGIUM AND FRANCE NEW UFO WAVE

On January 1, 2002, Jeff told me during his radio show about the considerable upswing in UFO activity in Belgium and France, including the Flying Black Triangles. (I'm a regular guest on the Jeff Rense's Radio Show, the first Tuesday of the month.) Jeff Rense reports that the flying triangles are back in Europe, particularly in Belgium and France! In 1989 and 1990, the Flying Triangles were reported almost nightly.

In mid-October a young lady reported a UFO in the Avioth area of northern France. The very dark, square shaped UFO had four lights, one at each corner.

Last month, UFO sightings became widely reported on the TV news and popular newspapers, reporting that "A new wave is hitting Belgium." One of the more popular Belgian papers, "La Dernière Heure" (The Last Hour) on December 19th featured a detailed report by one of its noted writers, Gilbert Dupont, about the return of the triangles, with new reports of blue lighting on the underside of the craft, as well as orange and yellow. Belgian TV interviewed two young men in Namur, who reported a very close encounter with a silver, cylindrical shaped UFO. Triangles are being reported with varying lighting structures; red, green and blue lights, as well as UFOs that are orange in color. Many of the Belgian UFO organizations believe the Flying Triangles are US military related considering the presence of SHAPE (Supreme Headquarters Allied Powers Europe), in Brussels, Belgium. The craft cause vibrations that rattle windows and dishes. They are described as huge flying buildings, possibly two triangles stuck together. Thanks to Jeff Rense who has a detailed report on his web site at Rense.Com.

SURVEY REPORT: THE LAST WORD, Part 3

by John Schroeder

The *Enigma* strives to report fully an honestly any local UFO story. An eighth survey form was given a month after others were evaluated for new year's publication. We thought you ought to have opportunity to evaluate all opinions of members brave enough to submit them. Our comments are italicised.

Has UFO experience influenced your world view? "The world was never the same! However, the experience didn't seem to benefit my personal life. Its effect on my education was dubious: highly uncertain on my employment." Perception of reality? "It seemed to demonstrate that in a 'dark' world, there really can be magic."

Has it influenced you internally? "Who knows? Not as much as poor parents, however." Relationships to family? "Perhaps hindered." Friends? "Perhaps hindered also. Not sure about others."

Relationship to faith and religion? "Again my experience seemed to prove that in a very mundane, cruel world, magic did indeed exist."

Emotional response to idea of creatures outside our world? "The thought has always been interesting. I don't know if they are wise, good or evil; but they are definitely superior!"

Possibility of our developing equal technology to UFO occupants? "I can't say if 'occupants' or 'machines' are involved, though it appears either are there at certain times. How do you feel about personal contact with extraterrestrials or ultradimensionals? "That needs more evidence. The 'reality' is only 'religious' so far." What is your future world projection? "Doubtful. Uncertain. Mankind has not seemed to have advanced much in a humanitarian sense. (As a Christian minister with 51 year's experience, I'd have to agree. Repentance, spiritual renewal and loving sharing are sorely needed.)

What is your potential in it? "I have no certain opinion - just hopeful expectations. However, I feel that UFO research seems too spasmodic, undirected, primitive and unreliable to date. There are many hoaxes and fabrications to push through - a lot of misidentification!" (Problems do need solution! Thanks for all eight people who were concerned enough to air their opinions for our *Enigma* readers.)

WISCONSIN FLYING TRIANGLE

GREENVILLE -- On September 23, 2001, the witness said, "I was traveling south on US 45 just south of the city of Greenville in Winnebago County. I noticed an aircraft flying south parallel to me that had its landing lights on at 10:00 PM. The aircraft made a sharp right turn and headed back to the north. As we approached the aircraft near the intersection of 150 and 45, it appeared the aircraft had stopped moving. As we got closer we could definitely see that it was not moving and that it was hovering at about 400-500 feet high. Other vehicles were traveling south on US 45 and were slowing down also because of what they were seeing. It appeared that it was no more than 1/4 mile away on the right side of the road hovering over farm fields. The aircraft was shaped like a triangle with three or four bright white lights on two sides and two red blinking lights. Thanks to UFOWisconsin by Duane W http://www.ufowisconsin.com/county/reports/r2001_0923_winnebago.html for drawing

ILLINOIS UFO

CRETE -- On September 1, 2001, the witness reports seeing a UFO hovering over an open field at only 100 feet above the ground at 12:30 AM. The witness was driving his truck, when the UFO moved quickly upward and away from roadside. It was a dim yellowish white in color and the underbelly was brighter in color and definition. The object was the size of 1 1/2 buses in length. I did not believe in UFOs until this happened. I was in total awe of how an object of its size moved and changed direction so fast. Thanks to Peter Davenport NUFORC

NEBRASKA DAYLIGHT FLYING TRIANGLE

OMAHA -- The witness was traveling on Crown Point Road on August 29, 2001, near the Blair High Road intersection, when he saw a black shape moving through the air almost directly east. The witness has many years of Air Force experience and familiarity with the air traffic patterns of the area. He stated, "My immediate presumption was this had to be either a dark colored B1 or possibly B2 bomber heading in for a landing at Offutt AFB. Then, to my utter surprise, the object 'banked' giving me an edge on view; and what I now saw was a very long, narrow angled black triangle. Having seen number of 747s at that distance, I would estimate it at about that length of 231 feet. It was clearly not the shape of a B2, nor a B1, because the only time it's wings are back in a 'delta' type configuration is when it is flying at high speed (which this craft was not). Second, because the shape was way too narrow and triangular. I was going to stop and keep watching this craft, but I first looked down to my Van's clock to see the exact time, and when I looked up, the craft was gone." Thanks to NUFORC www.ufocenter.com

KANSAS ORBS

COLDWATER -- Pat Wells saw an amazing orb in the western sky with his 30-70 binoculars on October 1, 2001, at 4:26 AM. It stayed stationary for fifteen or so minutes then flew west. The light was intense. Pat says, "I was looking above the western horizon about 20 degrees and saw an orb with red white and yellowish flashing lights within and revolving it then moved west pretty dam fast." I would be interested in any other sightings. God bless America. Thanks to Pat pwell@rh.net

LOCAL MEETINGS

UFO STUDY GROUP OF GREATER ST. LOUIS

Meets regularly the second Sunday of the month at 2 PM.
at Grone's Cafeteria, 1269 S. Laclede Station Rd. in Yorkshire
Shopping Plaza, St. Louis 63119. For more information
call Walter Palmer at 314-771-0173 or call Spence Wolling
at 314-966-4955.

MUFON MISSOURI-ST. CHARLES, MO

Meets regularly the third Tuesday of each month
at 6:30 PM at the Holiday Inn Select at 4221 South
Outer Road, St. Peters, MO, 1/2 mile W. of Cave
Springs, Exit 2. For more information, call Bruce
Widaman at 636-946-1394.

MUFON OF SOUTHERN ILLINOIS

Meets regularly the third Sunday of each month at 2 PM
at the Ponderosa Steak House in Collinsville, IL. From
St. Louis take 55-70 east to Illinois 157. Turn left or
north on 157 and go a short distance to an overhead
sign that says Police Left. Turn left there and you will
see the Ponderosa sign. For more information call
Forest Crawford at 618-345-0554.
